4.5 GENERAL RULES

4.5.1 PLAYER REPRESENTATION

Players can represent an FIG Member Country based on

- Passport
- Residency (Minimum period of 2 years)

A player who previously played in any FIG World Cup, Continental Championship or FIG World/Regional Tour representing a FIG Member country may change to another country if:

- Player has multiple passports.
- Player shows Proof of Residence in the country he wishes to play for, for a period of 2

years A change of country they represent can only be done ONCE.

Acceptance of Nationality amendment is subject to written approval from FIG Board and both residing Presidents of FIG Member countries involved.

The player and requesting FIG member country must make the request in writing. A period of 60 days will be actioned from the original letter date until final approval.

On all occasions the FIG Board may take decisions of a general or individual nature with regard to issues resulting from nationality, citizenship, domicile or residence of any competitor including the duration of any waiting period.

In this unique situation the regulation of one single change per lifetime would remain.

Exception applies if any FIG Member country unifies with another FIG member country at any point.

4.5.2 PLAYER CONDUCT

Players are expected to play in the spirit of the game by acting with integrity, showing consideration to others, and taking good care of the course. The organizers and head marshal have authority to disqualify a player for any serious misconduct that is contrary to the spirit of the game and in accordance with FIG or local tournament rules.

The use of alcohol, illegal drugs and smoking are STRICTLY PROHIBITED at FIG official competitions.

Players must be respectful, and organizers reserve the right to remove a player from the competition at any time for any reason.

4.5.3 TIES

In case of a tie, the organizer must stage a playoff for minimum 1st place across all categories (exceptions in 'force majeure' cases) with the option to add a playoff for second and third place or cash and prize positions at their discretion which must be notified before the tournament. If the organizer chooses to not playoff for positions 2+ then countback will be used to split 2nd and 3rd with 4th and below tied. Places 1-3 receive full points, starting in 4th places ties, points will be split.

After the third place, all players involved in a tie will be awarded the average number of points of the positions they hold (If three players tie in 10th position, these players would eventually be in positions 10, 11 and 12. The number of points for these three positions will be added and divided by 3 and this score will be awarded to the three players.)

For all FIG tournaments (MAJORS / FIG 500 / FIG 250 / FIG 100), the playoff will be played on a three hole playoff for the title. If the players are still tied after the playoff, additional holes may be played or proceed to penalty putts (five putts/players from a minimum of 5 meters) followed by a sudden death penalty shootout if necessary.

If for any reason (climate conditions, lack of sunlight, safety, etc.) the playoff cannot take place, the organizer and marshal will proceed this way: 1st, 2nd and 3rd positions will be decided by the last 18 holes (final round) for a 36- or 54 or more-holes tournament, or by the back 9-6-3-2-1 for 18 holes tournament.

4.5.4 DISPUTES, DECISIONS & PENALTIES

If a protest is submitted, the Committee shall bring its decision within 30 days. Players cannot agree on eliminating the validity of any of the rules, or to disregard any of the issued penalties; if they still do so, the penalty for the breach of the rule, involving disqualification, shall be made without any time limitation.

In case the disputable affair is not being solved between the organizing Committee and the complaining player, they may both submit a request, to reach a mutually approved statement, to the Rules Committee acting as an official FIG authority, so that they can express their opinion about the fairness of the brought decision. In the event that a decision cannot be reached, the Court of Arbitration for Sport can be consulted. A maximum deadline of 30 days will be given for a player to submit a protest.

If any player is penalized retrospectively, the leaderboard will be updated and any prize money or award must be returned to the organizer to be re-allocated to the corresponding players after the tournament is over. The time limit for any penalization is set on 30 days after the tournament has finished.

4.5.5 BAD WEATHER

If weather conditions force the organizer to suspend the tournament, full points will still be allocated and the result based on the number of completed rounds if the total number of holes played is at least 50% of the total number of holes.

Before the game, if for any reason (flooding, animal damages, etc.) a hole is declared unplayable, it has to be replaced by another similar hole (same par, similar distance) or cancelled. If more than three holes are declared unplayable, then the entire course could be considered as unplayable and therefore the round may be cancelled.

If this happens during the game (flooding, animal damages, etc.), the tournament director has the authority to make the decision to cancel the hole and give all the player the score of the par in accordance to the approved FIG Local Rule as outlined below. If more than three holes are declared unplayable during the game, the entire course could be considered as unplayable and the general rules of bad weather applies.

4.5.6 COURSE DESIGN

The designer must take natural weather conditions (strong wind or heavy rain) in consideration when they design in order to prevent unplayable holes. They also have the responsibility to design a course that assures a decent pace of play for the players, especially when setting the pin position.

It is the responsibility of the designer and tournament director to set DROP ZONES and objects to reach the ball easily on the holes which can represent a danger for the pace of play (if there is a big water obstacle to cross for example).

A new course design standards will be published before the season starts.

4.5.7 REGISTRATION POLICIES

Players should **clearly understand the terms and conditions** of each competition before they register for the event.

Players are reminded to check in advance the cancellation policy for all tournaments by contacting the organizer directly. The FIGF accepts no responsibility for loss incurred to FIGF members or players for cancelled tournaments. Players who do not follow the registration and cancellation policy can be blocked on the suggestion of a MC to the Competitions Committee for future tournaments.

4.5.8 LOCAL RULES

Organizers are permitted to introduce local rules approved by FIGF Rules Committee and must notify players in advance (rules@figf.org). For FIGF 1000-500, countries must send their local rules for approval.

FIGF APPROVED LOCAL RULES:

The FIGF Rules Committee has the following list of approved local rules that do not require prior consent. These local rules may or may not be applied by the organizers.

'Unplayable' Hole

Score average versus PAR: In addition to Rule 1-3-4 and as outlined below under the section Bad Weather, when declaring a hole unplayable based on score, the organizer must use the statistics to review the average score.

Hole average per category per round:

+1.00 v PAR Tournament Committee to review

+1.50 v PAR Hole may be declared unplayable and PAR awarded to all players within category affected

Bad weather

In addition to FIGF Rules and as outlined above under the section Bad Weather, when declaring a hole unplayable due to inclement weather, the organizer is entitled to use a wind measuring device or gauge but must announce the speed and timeframe of such a decision before play.

Furthermore, a pace of play guide can be used to remove any hole deemed to create a disturbance to the overall tournament pace of play. Again any information must be shared before play.

Footwear and Clothing

In addition to FIG Rules, weather specific clothing, Soccer cleats (Strictly subject to venue), and religious or cultural attire may be accepted should the organizer decide

'Seeded' Draw

Each organizer has the authority to adopt their own Code of Conduct for their tournaments if it still respects the FIG rulebook guidelines about etiquette and behavior.

Any FIG Member Country with outstanding debt (membership fees or tournament fees) from the previous season will be unable to stage ANY FIG tournament until the payment is cleared

4.5.10 FIG LOGOS

Players must request the FIG World Tour logo from their FIG Member Country.

The FIG World Tour logo must be used in conjunction with the logo of the national organization (FIG Member Country).

If authorization is not given, players are not allowed to use the FIG logo or FIG World Tour logo on their uniform. Uniforms with FIG Member/World Tour Logos combination can be used to compete in FIG World Tour/FIG Member Countries events only. Reported players will lose their points on that specific tournament. Each FIG Member Country is responsible for providing authorization and the correct file to players.

FOOTGOLF LOGOS NOT ASSOCIATED TO THE FIG ARE PROHIBITED. SANCTION COULD POTENTIALLY REACH PLAYER DISQUALIFICATION.
